

Link your Roku to your Account

1. Make sure you are logged into your Roku account. From the main My Account page, click the **Link a device** button.

2. Connect your Roku to your TV and turn the Roku on. The Roku will need to be connected to the internet. It will walk you through on the TV screen how you want to connect it to the Internet. Enter you wireless code to use your wireless connection. If you have an Ethernet port on your Roku, you can also use an Ethernet cable to your router for connection to the Internet.

After your Roku is connected to the Internet, it may ask you to update it. Go ahead and update it. It will reboot after the update is complete. After it reboots, it will give you a code on the screen like the one in the image below.

3. Enter this code on the web page from Step 1 and click the **Submit** button.

5. Now you need to select channels to add to your Roku. You must select at least 1 channel. It is recommended to just add Netflix and uncheck everything else to speed up the process of linking your Roku. Click the **Continue** button to complete the linking process.

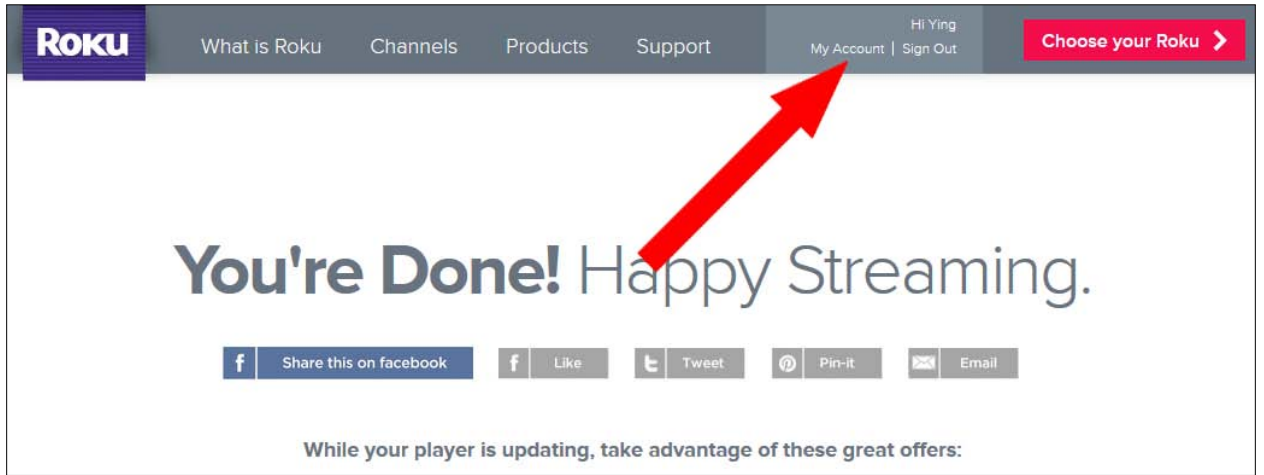

The screenshot shows the Roku channel selection interface. At the top, there are two channel options: 'WB ARCHIVE INSTANT' and 'ANGRY BIRDS TOONS', each with a '+ Add Channel' button. Below this is a section titled 'Stay informed with the latest in news, sports & social media' containing logos for 'on', 'NHL GAMECENTER', 'WATCH ESPN', 'FOX NEWS channel', 'THE WALL STREET JOURNAL WSJ Live', and 'f', each with a '+ Add Channel' button. A 'Summary' panel on the right shows a receipt for 'Netflix' at 'FREE' and a 'Total' of '\$0.00'. At the bottom right, a blue 'Continue' button is highlighted with a red arrow.
